

TANMAY RAUT

Tempe, AZ | tanmay.rautwork@gmail.com | +1 480-810-7747 | linkedin.com/in/rauttanmay

Summary

Results-driven **Business Systems & Operational Excellence Manager** with 5+ years of experience driving Lean transformation and maximizing throughput in **discrete and high-volume manufacturing environments**. Proven expertise in **ERP-led change management and integration (Odoo, SAP)** across **Finance, Manufacturing, Sales, and Inventory** functions to ensure reliability, transparency, and cost control. Skilled in **process optimization, post-implementation support, and governance** for enterprise systems. Adept at mobilizing cross-functional teams, directing supervisor-level staff, and leveraging **data analytics (SQL, Tableau)** to deliver measurable business impact. Experienced in **ERP integration and manufacturing optimization across high-mix, discrete production—transferable to automotive supply chain environments**.

Education

Arizona State University, Tempe, AZ | M.S. in Mechanical Engineering | GPA: 3.8/4.0

Manipal Institute of Technology, Manipal, India | B.Tech in Aeronautical Engineering (Minor in Mechanical) | GPA: 3.5/4.0

Technical Skills

Project & ERP Tools: Odoo ERP (Studio, Inventory, Manufacturing, Accounting, Sales, Purchase), SAP, Oracle/NetSuite, SQL, Excel (VBA, Power Query, PivotTables), Tableau, JMP, JIRA, Wrike, Microsoft Project

CI & Manufacturing: Lean Manufacturing, Value Stream Mapping, Kaizen, 5S, Kanban, Process Mapping, FMEA, Root Cause Analysis, SPC, DOE, Production Planning, Manufacturing Layout Design, GD&T

Data & Automation: Python scripting for ERP automation, Data visualization (Excel/Tableau), KPI dashboarding, Cost analytics

CAD Tools: SolidWorks, AutoCAD, Creo, CATIA (2D/3D modeling for NPI & process documentation)

Experience

Heckler Design Inc, Phoenix, AZ

Business Systems & Operational Excellence Manager (ERP Integration & Process Optimization) **Apr 2024 – Present**

- Spearheaded ERP-based planning enhancements in Odoo for 30+ 3D printers, integrating labor availability, plate capacity, and material status, increasing on-time MO completions by 25%.
- Built custom SQL dashboards for leadership to monitor cycle time, rework rate, yield, and backlog in real-time, driving data-driven floor interventions.
- Collaborated cross-functionally with QA, Finance, and Procurement to reduce scrap and link manufacturing costs to accounting, improving cost accuracy and vendor margin analysis.
- Designed and delivered Odoo training for routing, BoMs, and manufacturing workflows to improve system adoption and process standardization across departments. Established governance documentation and change tracking protocols for ERP module rollouts. Leading ERP processes impacting 8+ departments and 500+ SKUs.

Heckler Design Inc, Phoenix, AZ

ERP Systems Engineer **Oct 2023 – Mar 2024**

- Launched integrated MRP and automated reordering logic in Odoo, reducing raw material stockouts by 40% and improving procurement forecasting. Introducing defect tagging and resolution logs with QA, reducing reprint rates by 15% over 4 months.
- Developed Python and XML-based customizations in Odoo Studio to automate work order generation and lead time tracking, saving approx 12 hours/week in manual work.
- Coordinated with external developers to replace spreadsheet-based tracking with embedded ERP dashboards, increasing visibility and accountability.
- Collaborated with SAP-experienced consultants to align Odoo workflows with best practices in MRP and costing (S/4HANA equivalent process mapping)

United Foods, Phoenix, AZ

Manufacturing Engineer **Jul 2023 – Oct 2023**

- Led CI projects targeting labor efficiency and line balancing in food production lines; achieved a 12% increase in hourly output and reduced material waste.
- Conducted time studies and implemented visual work instructions and SWI, accelerating training ramp-up and standardizing changeover steps.
- Coordinated with cross-functional teams to optimize preventive maintenance scheduling, reducing unexpected equipment downtime by 18%.
- Used NetSuite to analyze production flow, flag delays, and align order priorities with inventory and sanitation cycles in real time.

TANMAY RAUT

Tempe, AZ | tanmay.rautwork@gmail.com | +1 480-810-7747 | linkedin.com/in/rauttanmay

Vats and Vessels Ltd, Mumbai, India

Production Supervisor – Industrial Fabrication

Jan 2020 – Dec 2022

- Managed day-to-day operations across pressure vessel fabrication, including welding, machining, and inspection, ensuring adherence to ASME section VIII & ISO 9001.
- Applied Lean Manufacturing tools (5S, Kaizen) to reduce rework and material handling time, boosting first-pass yield by 10%.
- Developed BOMs, routing sheets, and operator logs, enabling traceability and production tracking across multi-product lines.
- Maintained OSHA-equivalent compliance through daily toolbox talks and monthly safety audits, achieving zero reportable incidents in 12+ months.

Key Project Highlights

ERP-Based Production Flow Automation | Heckler Design Inc, Phoenix, AZ

- Spearheaded the development of an Odoo-integrated production flow for 30+ 3D printers, incorporating dynamic job prioritization based on labor, material, and nozzle constraints.
- Built custom dashboards and cost rollup modules, improving print job visibility and enabling real-time decision-making across production and procurement teams. Resulted in a **25% improvement in throughput**, **22% reduction in queue congestion**, and **15% reduction in idle machine time**.

New Product Introduction (NPI) & Supply Chain Optimization | Heckler Design Inc

- Led full-cycle product launch coordination across R&D, production, logistics, and quality for 6+ SKUs.
- Standardized BOMs and routings, introduced phase gate reviews, and linked costing directly to ERP modules. Achieving **15% reduction in lead time**, **20% reduction in inventory holding cost**, and **30% faster production ramp-up**.

Lean Manufacturing Implementation for Mixed-Model Production | United Foods, Phoenix, AZ

- Led Kaizen events to optimize welding, assembly, and finishing flow for high-SKU-count production.
- Reduced setup and transition times through standard work instructions and floor layout redesigns. Contributed to **17% cycle time improvement** and **12% reduction in rework incidents**.

Material Replenishment & Inventory Optimization | Heckler Design Inc

- Automated min/max reordering and demand-triggered purchase rules in Odoo, eliminating manual spreadsheet-based procurement tracking.
- Aligned raw material procurement with machine-level production cycles, reducing **material stock outs by 40%** and **cutting material holding costs by 18%**.

Costing & Financial Integration for Job Orders | Heckler Design Inc

- Integrated work order cost components (labor, machine time, raw materials) directly with Odoo Accounting and Purchasing.
- Enabled visibility into per-unit manufacturing cost, driving **12% improvement in budgeting accuracy** and reducing **misallocated spend by \$15K+/quarter**.

Certifications

- Lean Six Sigma Green Belt – IIBA
- SAP S/4HANA Essentials – LinkedIn Learning
- Root Cause Analysis & Corrective Action – Udemy
- 5S & Workplace Organization – Alison
- Supply Chain Operations – Rutgers (Coursera)
- Tableau for Data Visualization – NASBA
- Odoo ERP – Internal Manufacturing Systems Certification
